## SRCD Pre-Conference

*at the Society for Research in Child Development Conference—Baltimore, MD*

# Conceptualizing and measuring culture, context, race, and ethnicity: A focus on science, ethics, and collaboration in the Spirit of 2044

*Organized by the SRCD Ethnic & Racial Issues Committee (Dawn P. Witherspoon, Gabriela Livas Stein) in collaboration with the SRCD Equity & Justice Committee and the SRCD Asian, Black, and Latino Caucuses*

By 2044, the U.S. is projected to become a “majority-minority” country with no racial/ethnic group having a numerical majority. For youth under 18, that shift is expected by 2020. Developmental scientists are tasked with examining unique and universal processes that promote the growth, thriving, and resilience of these populations while also considering systems of oppression, power, privilege, racial justice, and structural disadvantage.
