Child Study Center's 2006 Lois Bloom Lecture

P R E S E N T E D B Y

Dr. Richard J. Davidson

*Ph.D., Harvard; Professor of Psychology and Psychiatry, University of Wisconsin–Madison;
Director, Waisman Center for Brain Imaging and Behavior and the Laboratory for Affective Neuroscience*

“Order and Disorder in the Emotional Brain”

THURSDAY, SEPTEMBER 21, 2006

4:15 P.M. • THE NITTANY LION INN BOARDROOM 1 AND 2

Reception to follow

The Waisman Laboratory for Brain Imaging and Behavior is a state-of-the-art facility dedicated to affective and cognitive neuroscience research with brain imaging.

The Laboratory for Affective Neuroscience at the University of Wisconsin–Madison is engaged in a broad program of research on the brain mechanisms that underlie emotion and emotion regulation in normal individuals throughout the life course, and in individuals with various psychiatric disorders. The populations studied include normal middle-aged and older adults, infants, toddlers, children, and adolescents.

Dr. Davidson's lecture is made possible by the Child Study Center Lectureship, an endowment established by Dr. Lois Masket Bloom, '56 Arts and Letters and a Distinguished Alumna of Penn State.
